PAA 2011 CALL FOR PAPERS POPULATION ASSOCIATION OF AMERICA 2011 ANNUAL MEETING Washington, DC March 31 - April 2, 2011 Deadline for Submission: September 17, 2010

INSTRUCTIONS FOR SUBMITTING A PAPER:

- 1. All presenters, discussants, chairs and session organizers must be members of the Population Association of America or must be registered for the meeting at the non-member rate. Please visit the PAA website, http://www.popassoc.org, for a membership application form or contact the PAA office, 301-565-6710. Registration opens in January 2011.
- 2. Submissions are made online at the 2011 Annual Meeting Program Website, http://paa2011.princeton.edu. The process for submitting papers is similar to that from last year. All authors are asked to submit both: a) a short (150 word) abstract to be entered online; and b) either an extended (2-4 pages, including tables) abstract or a completed paper to be uploaded to the website following instructions available online. Authors may modify their submission online at any time until September 17, 2010.
- 3. Extended Abstracts must be sufficiently detailed to allow the session organizer to judge the merits of the paper, including a description of the topic to be studied, the theoretical focus, the data and research methods, and the expected findings. Alternatively, authors can submit completed papers for the organizer review. If your submission is accepted in a regular session you must upload the full paper by March 1, 2011.
- 4. The PAA 2011 Program website will allow session organizers to view the titles and authors of submitted abstracts as they are received online. The author making the submission must provide the full names, affiliations, addresses, phone numbers, fax numbers and e-mail addresses of **all** coauthors for each submission.
- 5. As in the past, all sessions are numbered. If you wish to have your abstract considered by two organizers, you must indicate the session numbers of your first and second choices on the Submission Form. This gives the first designated organizer first right of acceptance. No paper/abstract may be submitted to more than two sessions. No participant may appear on the final program more than twice. Authors submitting a paper to regular sessions may also have their paper considered for a poster session; see below for details.
- 6. In addition to the 101 sessions listed in this Call for Papers, approximately 80 "overflow" sessions will be created by session organizers that receive large numbers of submissions. In choosing where to submit your paper keep in mind that session organizers with broad session titles generally end up organizing at least two or three sessions. You should send your paper to the sessions that seem closest to the topic of your paper.
- 7. If no session is appropriate for your paper, you may either submit it as a poster to Session 1302 (see Instructions for Submitting a Poster below) or submit the abstract/paper directly to the Program Committee Co- Chair, David Lam, at Session 1301. Given the collective breadth of the existing sessions, it is expected that very few papers will need to be submitted to Session 1301.
- 8. In recent years about 2000 papers have been submitted. This year roughly 700 papers will be accepted for regular or overflow sessions. Another 600 will be accepted for poster sessions.

INSTRUCTIONS FOR SUBMITTING A POSTER:

- 1. Members are encouraged to submit abstracts/papers for consideration as posters. All of the above instructions for paper/abstract submissions also apply for poster submissions. Authors who wish to submit their papers for consideration *only* for a poster session should submit their abstracts/papers to Session 1302, organized by the Program Committee Co-Chair, Wendy Manning.
- 2. Authors who are submitting a paper to one or two regular sessions may also have their paper

considered for a poster session if it is not accepted in a regular session. Authors who want their papers considered for a poster session must check "yes" in the appropriate area of the online Submission Form. If you do not check "yes", your paper will not be considered for a poster.

IMPORTANT DATES

- September 17, 2010 (Friday): Deadline for submitting papers or abstracts to organizers
- November 1, 2010 (Monday): Authors are notified of papers accepted to regular sessions and session organizers forward unaccepted but promising papers to Program Committee Co-Chairs for possible inclusion in overflow regular sessions or poster sessions
- December 17, 2010 (Friday): Authors are notified of papers accepted into overflow regular sessions or poster sessions
- February 4, 2011 (Friday): Deadline for making online revisions to abstracts of accepted papers
- March 1, 2011 (Tuesday): Deadline for posting completed papers on the program website

If you have questions please contact paa2011@popassoc.org.
